

ALVEOLARE Silencer 160mm

CADSILENZ007

ALVEOLARE noise attenuator, 300x180x800mm, Ø160mm, male female connection. Patented by CLA.

Alveolar silencer reduces the noise traveling with the air through the duct. It is composed of glass wool covered by a black fibre glass. Thanks to these materials it has gained the fire resistance class A2 certification in accordance to UNI EN 13501-1.

PATENT N° MI 2013/A001540

ACOUSTIC TEST: Listen to the difference with and without ALVEOLAR silencer:
